#### Celebrating World Food Day

What is World Food Day? Millions of people celebrate World Food Day every year on 16 October in over 150 different countries.<sup>1</sup> \_\_\_\_

<sup>2</sup> \_\_\_\_ But 805 million people, or one in nine people in the world, are hungry. Who is this the worst for? 60% of hungry people in the world are women. 70% of these people live in the countryside in Africa, Asia and South America. <sup>3</sup> \_\_\_\_ The USA is one of the richest countries in the world, but food is still too expensive for many. One in seven Americans does not have enough to eat.

What is the effect of not having enough food? When you are hungry, you are sick more often and live a shorter life. Almost five million children under the age of five die every year because they are not getting the right food into their bodies.

<sup>4</sup> \_\_\_\_ First, let's plan our meals better so we don't use too much food. <sup>5</sup> \_\_\_\_ Save it for the next meal. Also, buy fresh food that is in season. That means buy winter vegetables, like carrots, in winter and buy summer food items, like tomatoes, in the summer. We should also give money to charities like Oxfam that work in poorer countries. And finally, give food donations to food banks. If everyone gives a little bit, together we can make a big difference.

- A Many of them are family farmers.
- B They take part in events, give money and talk about ways of helping hungry people around the world.
- C And don't throw away food!
- D Most people believe that the right to food is a basic human right.
- E What can we do?
